

## R/V Yellowfin Social Distancing Plan Phase IV

30 Guest Max  
3 Crew members  
Total persons aboard 33

### Legend

- Outside Areas. Masks required. Includes life vest chest deck behind bridge,
- Head and outside sink. Disinfect after use.
- Galley & wetlab. Masks required unless used for meals on long trips. IF eating or drinking then 6-foot social distancing applies. First bunkroom on right may be used for backpacks
- Off Limits: kitchen in galley, bridge and engine room. Refrigerator is not for guests.

All guests will need to fill out the campus or SCMI COVID-19 Questionnaire before they arrive at SCMI. If they answer YES to any of the questions they should not come on the cruise. Protocols and link here: <https://www.scmi.net/covid-19-response/> **Everyone will be expected to show proof of completion via the response email on their phone or print out.**

All persons aboard will wear masks and closed toed shoes.

Students/Researchers should line up on the designated markers along the wharf no more than 30 minutes before the start of the cruise. No one should be gathered on the dock or gangway before the cruise start time.

Students/Researchers will be checked in one at a time before boarding the R/V Yellowfin. The check in will consist of signing the vessel manifest, confirming they have filled out the COVID-19 Questionnaire, have a mask, and possibly a temperature check. If students/researchers exhibit a temperature of 100.4° F and higher or any symptoms of COVID-19 they must not board the vessel.

**Areas that are off limits are:** the bridge, the engine room, the kitchen part of the galley, the area forward of the galley (pantry and captain's quarters), and the bunk areas below with the exception of occasionally the first bunk on the right to stow backpacks etc if needed. Check with the captain or demo tech to arrange this.

**Areas that are accessible:** outside on the main deck, upstairs behind the bridge by the blue life vest chests, the head, the wet lab, and the galley seating area.

**IF the galley seating area is to be used for eating** for trips longer than 4 hours, then social distancing (6 foot) rules apply while masks are off. If eating or drinking outside, social distancing rules apply.

Persons using the head must sanitize all surfaces after use and use the outside sink under the ladder for handwashing. The door to the Galley should remain closed.

**Any of these protocols can be amended or changed by the CSULB safety department or the Captain of the vessel**

Vessel and line up zone locations

## SCMI R/V Yellowfin Check-In Procedure

1. Students/researcher should go straight to the wharf and line up on the designated markers in front of the R/V Yellowfin. Students should not linger around the front building or front parking lot to avoid overcrowding.
2. The Demo Tech will check in each student/researcher one at a time before they can board the R/V Yellowfin. The check can be done next to the gangway near the lineup markers.

The Demo Tech will verify:

- a. That the student/researcher has filled out the [COVID-19 Questionnaire](#) by showing the response email they received.

- b. That the student/researcher is wearing a face mask properly and close-toed shoes.
  - c. The student/researcher signs the vessel manifest
3. Once all the students/researchers are checked in the Demo Tech should give the safety speech on the dock before they board the vessel.
  4. The COVID-19 safety speech should include:
    - a. Everyone must keep their mask on at all times during the cruise except while eating and drinking. This includes all areas of the vessel even the outside.
    - b. Point out the head and sink everyone can use to wash their hands. The sink turns on at the bottom with a kick pedal. Please sanitize the head after use.
    - c. The following areas are off limits to students/researchers
      - i. The bridge
      - ii. The engine room
      - iii. The kitchen part of the galley, the refrigerator is not for guests.
      - iv. The area forward the galley (pantry and captain's quarters)
      - v. The bunk areas
    - d. Students should avoid being inside the galley on short cruises. If the cruise is longer than 4 hours students/researchers can eat in the galley if they remain socially distant (6 feet).

**SCMI COVID-19 Pre-Screen Questionnaire**
